President's Message

(Excerpt from April 28th Email to Chapter Sables Reps)

Dear All:

I would like to take this opportunity to extend my thanks to all of you for your many contributions to “Continuing Our Outdoor Heritage”. I have enjoyed meeting you and working with you over the years. I am especially grateful for having served you as your Sables President.

In Tucson there is a list of names of educators/teachers looking for sponsorship to attend AWLS sessions but need funding. I am personally “adopting” a teacher. Sue Hankner, SCIF Director of Education, is “adopting” a teacher as well.

I would like to bring this challenge to you once again. As Sables Reps you have an opportunity to adopt a teacher on your own or to form a coalition. There are 36 Chapter Sables Reps and if each Rep contributes \$100.00, four teachers would have the opportunity to attend AWLS. Your donation can be used as a *tax deductible charitable donation*.

These educators will return to their communities armed with exciting and new knowledge for “Continuing Our Outdoor Heritage” to share with their students.

This is a small price to contribute to our passion! Meet this challenge as Reps and bring this challenge to your chapter board. They too can follow the same path to adopting a teacher.

Remember, the future of hunting is through education and Education is Power! Thank you in advance for your support. Please contact either Sue Hankner or me with any questions.

Best Regards,

Mary Lynn West

SCIF Education Sables President
